

Kate McPherson

Senior Assurance & Certification
Manager

Entry Into Service & Hand Back
Specialist

Experience

8+ years' UK experience in Quality Assurance and Handover Management, with as many years' experience in the UK rail construction industry. I am conscientious and enthusiastic, adaptable to challenging situations and comfortable using my initiative to resolve issues.

Hand Back Manager, during the 4.5 years at **London Bridge Station Redevelopment** £1bn, seeing it through to the project close-out phase. As a senior member of the Handover and Assurance team; I was responsible for the management, coordination, planning and production of documentation and deliverables for formal handback to the client (Network Rail).

DSE Technical Assurance Manager facilitated the closeout of signalling, track, civils, telecoms and electrical elements of the Thameslink Programme, to gain asset acceptance by the maintenance delivery unit (MDU) and the route asset managers (RAM).

Working as a consultant on behalf of the PC, from project commencement in co-authoring the Entry into Service and Asset Management Plan (AMP) for Handback Strategies and subsequently managing the implementation of these during the construction phase and hand back to NR on both Finsbury Park Station and Gatwick Station Project.
