Assurance Visualisation Planner

Hand Back Certification Lead

## Experience

Senior member of the DSE team, with 8 plus years' experience in the rail construction industry. Expertise in delivering assurance documentation and digital assurance tracking via Power BI dashboards.

**London Bridge Station redevelopment** as the Handover Engineer for the civils and architecture packages. provided the assurance files and O&Ms for the related AMP packs.

**DSE** Handback Certification Lead, part of an imbedded team for Brent Cross Accommodation Block to deliver the ITPs for all architectural works, all Assurance Files, provided the Form 05s and Discipline Completion Packs per discipline, as well as all O&Ms for civil, structural and architectural packages. Lead inspections with Construction Managers to agree close out of works and EIS/ Hand back inspection with the Head of Assets. Provided all AMP certification to the Head of assets.

Following successful hand back to NR, undertook a similar role for Gatwick Station Project, here leading the Head of Assets through the assurance process via the Discipline Completion Pack on site and page-turner inspections through to the operational use of the Staff Accommodation Block.
